Strategic Plan:

Academic year 2018-19:

1. Autonomous Status:

The Institution has decided to apply to UGC to get Autonomous status as we need to revamp our curriculum to make our students Industry-ready by introducing courses in emerging technologies, skill development courses, certification courses, etc., IQAC has submitted an application to UGC for the same in December 2018 and inspection was held on 2nd and 3rd of May 2019. MVJ College of Engineering is Conferred with Autonomous status from 2019-20 to 2028-29 by University Grants Commission and Visvesvaraya Technological University.

2;Participation in Clean and Smart Campus award by AICTE:

The award aims to seek engagement with all stakeholders, primarily the student community to draw their attention towards the immense scope and potential that the Technology offers for abstract objectives such as cleanliness, sustainability, environment etc. The rising use of technologies especially IOT, robotics, cloud and automation have immense potential to **remodel a campus into a smart campus**. These smart campuses can minimally help in **'forward delivery'** by optimizing the use of, inter alia energy and water consumption in the campus. Smart campuses would construct **'Smart Citizens'** – those who are **'future-ready'** for the Smart Cities and an even Smarter India. IQAC has filled in the questionnaire and submitted the details to AICTE. The inspection was scheduled in 2018-19 and was awarded an appreciation certificate for our efforts.

3.IPR Cell:

IPR Cell has been constituted to encourage faculty members and students to patent their work. IQAC organized Training Sessions /Workshops on patent filing.

4. To increase the intake in B.E. E Information Science and Engineering from 60 to 120 as there are lot of demand for CS related Courses.

5. To introduce New Programme in B. E Aerospace Engineering with Intake of 60

6. To take part in AICTE CII Survey of Industry Linked Technical Institute and get good rating.

7. Plan to organize a Programme – Industry 4.0 by inviting many industries and showcase innovative projects of students.

8. To take part in NIRF ranking and get good scores.
