OUTCOME:

1. The physical fitness of the MVJCE Throwball teams was very good, but the practice sessions were not sufficient enough for the teams to win in the tournament.
2. The team coordination among the students who live near the college was very good. With regard to the players who live far from our college, there was a lack of coordination with other players, during the game. This led to the loss in the game.
3. More practice sessions and fitness sessions will be the need of the hour, to help them improve their game in the upcoming tournaments.
